SECTION 2

Read the following paragraph and answer the questions given at the end.

English education and English language have done immense goods to India, in spite of their **glaring drawbacks**. The notions of democracy and self-government are the birth of English education. Those who fought and died for mother India's freedom were nursed in the cradle of English thought and culture. The west has made contributions to the East. The history of Europe has fired the hearts of our leaders. Our struggle for freedom has been inspired by the struggles for freedom in England, America and France. If our leaders were ignorant of English and if they had not studied this language, how could they have been inspired by these heroic struggles for freedom in other lands? English, therefore, did us great good in the past and if properly studied will do immense good in future. English is spoken throughout the world. For international contact in our commerce and trade, for the development of our practical ideas, for scientific studies, English is **indispensable** " English is very rich in literature", our own literature has been made richer by this foreign language. It will really be a fatal day if we altogether forget Shakespeare, Milton, Keats and Shaw.

Questions

1. Suggest a suitable title.
2. Explain the meaning of the words written in bold and make a sentence on those words,
3. Make a precis of the paragraph in 60-80 words.
4. Explain the relevance of the topic.
5. Write a short on the importance of English education and the English language.
